WELCOME

It's that time again for the latest edition of the RLTi News when we have an opportunity to connect and bring you the latest information about what's going on here at Resonant Light Technology. It has been a very busy spring, and the summer is shaping up to be busy as well. This is certainly welcome news especially in this economic climate.

Please do contact us should you have any questions whatsoever, or information to share; our staff are happy to help.

A WORD FROM THE DIRECTOR

Since Don Tunney's passing in January/09, RLTi has continued to carry forward his vision of making this world a better place in which to live. PERL users from all corners of the globe continue to inform us of many positive results, and that our product and service is par excellence.

We are in the process of implementing a few changes as we go forward, which may be more noticeable to those of you who have been with us for a long time than to others. For example, we will be changing some of the language we use for customer service, protocol labels, and our website.

As we go forward, new markets, new adventures, and new developments are on the horizon. We look forward to being able to share these innovations with you as they progress. Stay tuned to our website that is also undergoing an overhaul, and you'll be up to date with all the happenings as they occur.

Thank you for your continuing support and best wishes.

Edna A. Tunney

JOY FREQUENCY 963 HZ

Currently, the worldwide movement to promote peace and harmonious understanding among peoples has been gaining momentum. We would like to invite you to take 15 minutes in silence to radiate love, gratitude and joy while running 963 Hz, non-pulsed, square wave or sine, on your machine on June 21/09 at 8:00 pm your local time. Please join us in a celebration of humanity creating a wave of positive intention around the world.

Get Your \$1000 Discount

2 of 4

when you trade in your old RBT for a new PERL
from Resonant Light Technology Inc, the world leader
in photon emission resonant light.

Upgrade today with this limited time offer
available until July 31, 2009 only.

Enjoy all the advantages the
latest in technology can bring to you.

Trade-In Special until July 31/09
\$4695 US

Includes: PERL, ProGen II 4050,
Installed Light Tube, Power Cord
Operator's Manual
You Save **\$1000 US**
Regular Price after July 31
\$5695 US

ADVANTAGES OF THE PERL:

- stronger, more effective signal
- more effective light tube - 8" longer for more photon content, more vertical & horizontal wave transmission
- U-shape light tube offers 360 dimensional transmission
- instant ignition
- no loss of energy, therefore easier on components
- 40-120 watt output depending on frequency
- professionally assembled by qualified technicians
- compact and transports easily
- less raw RF emission and interference
- 1 year warranty; advanced, up-to-date component technology; repairs are possible if necessary

The New ProGen II

- 9th generation-state of the art; user friendly
- accurate to .001% of a hertz
- single frequencies and wave packets multiplying frequencies up to 950 in one bank
- software available for direct download via your computer

Special Offer for Current Owners of a ProGen II with their RBT

Return your ProGen II with your
RBT, and we will give you a discount
of **\$1300 US**
on the purchase of a PERL
with a brand new ProGen II,
thus ensuring that you
have the latest component
technology in the whole
of your equipment.

Added Bonus for All Customers Upgrading to a PERL with ProGEN II

Your new ProGen II will come complete with all 40 Banks installed AND
we will transfer any custom protocols you may have to your new ProGen II

**PLEASE NOTE: WE ARE NO LONGER ABLE TO REPAIR RBTS
OLDER THAN 5 YEARS AS THE AGING COMPONENTS
ARE INCOMPATIBLE WITH THE NEW COMPONENTS
ON THE MARKET.**

Call us at 1-250-338-4949
Resonant Light Technology Inc
Courtenay, BC, Canada

One of our staff will be happy to help you with instructions as to how to package and ship your RBT
to return it to us for this very special, time limited offer.

REMEMBER - We will give you **\$1000 US** off the purchase of new PERL **until July 31/09!**

P.S. Please send us your current email address to info@resonantlight.com

MOSQUITO REPELLANT

Got pesky mosquitoes? Try running your device at 7000 Hz. We would love to hear about your experiences.

VIRGIN COCONUT OIL FROM INDONESIA

Virgin coconut oil, often known simply as “VCO”, is considered by many to be one of the healthiest oils on earth. It is a natural healing product with many surprising benefits to the user. We offer an unrefined virgin coconut oil that is never bleached or deodorized.

Naturally free from trans-fatty acids, it is high in “Lauric Acid”, a medium chain fatty acid identical to the healthy group of fats found in human breast milk.

Harvested from wild trees in Indonesia, this virgin oil is grown without pesticides or herbicides, and is processed using direct micro-expeller processing, using no heat or chemicals.

It has a shelf life of several years, does not require refrigeration, and will not become rancid at room temperature. It may be used as oil or a spread; many find it replaces butter nicely.

Resonant Light is offering an exceptional price on cases of 12 jars, 26 oz (750 ml) in lovely resealable, reusable jars for **\$175 US** plus shipping. These jars could retail for \$28 to \$32 per jar.

The Xtraordinary Imports business is also for sale, including all current inventory, website, Canadian and Indonesian corporations, etc. Negotiate your price. Call 250-338-4949 or email Barbara@resonantlight.com.

SOME NOTES FROM THE ADMINISTRATOR

Barbara Foreman

We are excited to announce Resonant Light Technology Inc has placed an article and advertisement in the esteemed British horse journal, *Horse Health*. This magazine will be published mid-June and is read by professional trainers and vets. The article describes our technology and some results from the horse studies completed in the Comox Valley last year. You may recall these results were published in an earlier edition of our newsletter.

This is but one example of RLTi being proactive in taking our device into new areas of use and research. These actions are in response to the suspension of our medical device license and the resulting limitations to our ability to sell the device for human therapeutic use in Canada.

In compliance with current regulations, we are making further changes to our website by eliminating references to human health and introducing pages for non-human applications of the technology.

We are also happy to announce that one of our dedicated clients has created an online Forum for users of our technology. You will receive information about how to register in a separate email.

We continue to evolve and flourish here at Resonant Light Technology Inc. We appreciate your advocacy and the assistance you lend to Don Tunney’s vision for this technology to go into the far reaches of the globe.

NOTES ALONG THE WAY:

Loaning Equipment:

Please let us know when you are loaning your equipment. That way we will be able to provide customer support to the person who is using your device, and they will also be able to receive our newsletter and information on any current offers.

Thank You to West Virginia:

A very appreciative thank you is sent to the folks in West Virginia for hosting Edna Tunney in March for a presentation of our technology. Such events with demonstrations are useful to help people have an opportunity to experience the equipment.

We invite all of our customers to continue to educate, inform, and advocate for this resonant light technology embodied in the PERL. As information is shared, a ripple effect is created, which ensures that this technology will spread exponentially to situations where benefit will be received. We would be pleased to consult with you and discuss reimbursing you for your efforts.

How Do You Prefer to Receive Your Newsletter?

You will have noticed that we sent out the last newsletter in a different format. It was attached to the email as an Adobe pdf file. This month we will be sending it out as a pdf file attached to the email, and we will also provide a link to where you can read it on our website. It will be in a pdf file format on the website as well. Please let us know if you read it from the email, or if you prefer to read it on our website. If you do not have Adobe Reader on your computer, you can get it by a free download from www.adobe.com, choose "Get Adobe Reader".

1-800 Number and Skype

We are currently researching the possibility of having a 1-800 telephone number for Canada and the US. Please check our website for more information concerning availability.

As well, several of our staff members can be reached through Skype. Skype is computer software that enables free computer-to-computer calls for those with a broadband internet connection. You can download it at www.skype.com. Please see the "Our Staff" page on our website, www.resonantlight.com, for staff Skype contact information.
